JOIN YOUR LOCAL DAHLIA SOCIETY

If you grow more than ten hills of dahlias you will get a lot of pleasure and profit from your local Dahlia Society. The dues are small, the benefits great, and the pleasure of "talking it over" with other fans more than compensates for the time.

ROOTS ONLY are offered in this catalogue. Our stock is all root grown, so there is no chance to get over propagated stock from us. Many a good dahlia gets a set back from being over propagated. This we know from sad experience.

About the only place you have to arrive early to get a back seat is at church.

NOTICE

If your bi-colored and variegated dahlias show a solid color bloom at times don't feel too bad about it. All bi-colored and most variegated varieties will throw a solid bloom at times. Dixie Winedot will be solid purple, Gypsy Girl a solid white, Ricky a solid red, and so on through the whole list of bi-colors.

SEEDS FROM DESIRABLE DAHLIAS

This past season was another dry one and we harvested a fine lot of plump seeds from many of the best varieties. It is not easy to get a real good dahlia from seed, but you may be fortunate with only a few seeds. Your new seedling is yours alone to name. Try a few seeds in your spare spots.
